

SUPERVISION OF CHILDREN

QUALITY AREA 2 | VERSION 1.0

Working in partnership with Cancer Council Victoria, this policy has been aligned to the key policies and guidelines of the Healthy Early Childhood Services Achievement Program

PURPOSE

This policy will provide guidelines to ensure:

- the adequate supervision of all enrolled children is maintained at all times.
- the provision of a safe and secure environment for all children at Gembrook Preschool.

POLICY STATEMENT

VALUES

Gembrook Preschool is committed to:

- providing appropriate supervision for all enrolled children in all aspects of the service's program that is reflective of the children's needs, abilities, age and circumstances
- ensuring all children are directly and actively supervised by educators employed or engaged by Gembrook Preschool
- maintaining a duty of care (*refer to Definitions*) to all children at Gembrook Preschool
- ensuring there is an understanding of the shared legal responsibility and accountability between, and a commitment by, all persons to implement the procedures and practices outlined in this policy.

SCOPE

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of Gembrook Preschool including during offsite excursions and activities.

BACKGROUND AND LEGISLATION

BACKGROUND

Supervision is essential in ensuring that children’s safety is protected in the service environment. Children have a right to be protected from potential hazards and dangers posed by products, plants, objects, animals and people in the immediate and wider environment.

Supervision is an integral part of the care and education of children and requires staff members to make ongoing assessments of the child and the activities in which they are engaged; utilising a range of skills such as positioning and peripheral vision. Active supervision assists in the development of positive relationships between educators, children and their families, and informs ongoing assessment and future planning. Adequate supervision (*refer to Definitions*) requires teamwork and good communication between educators.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Child Safe Standards, Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011
- National Quality Standard, Quality Area 2: Children’s Health and Safety
- Occupational Health and Safety Act 2004
- Occupational Health and Safety Regulations 2017
- Worker Screening Act 2020
- Worker Screening Regulations 2021 (Vic)

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- regularly seek feedback from everyone affected by the policy regarding its effectiveness
- record and monitor complaints and incidents in relation to the supervision of children and amend the policy and procedures as required
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (*Regulation 172 (2)*).

ATTACHMENT 1: SUPERVISION RISK MANAGEMENT TEMPLATE

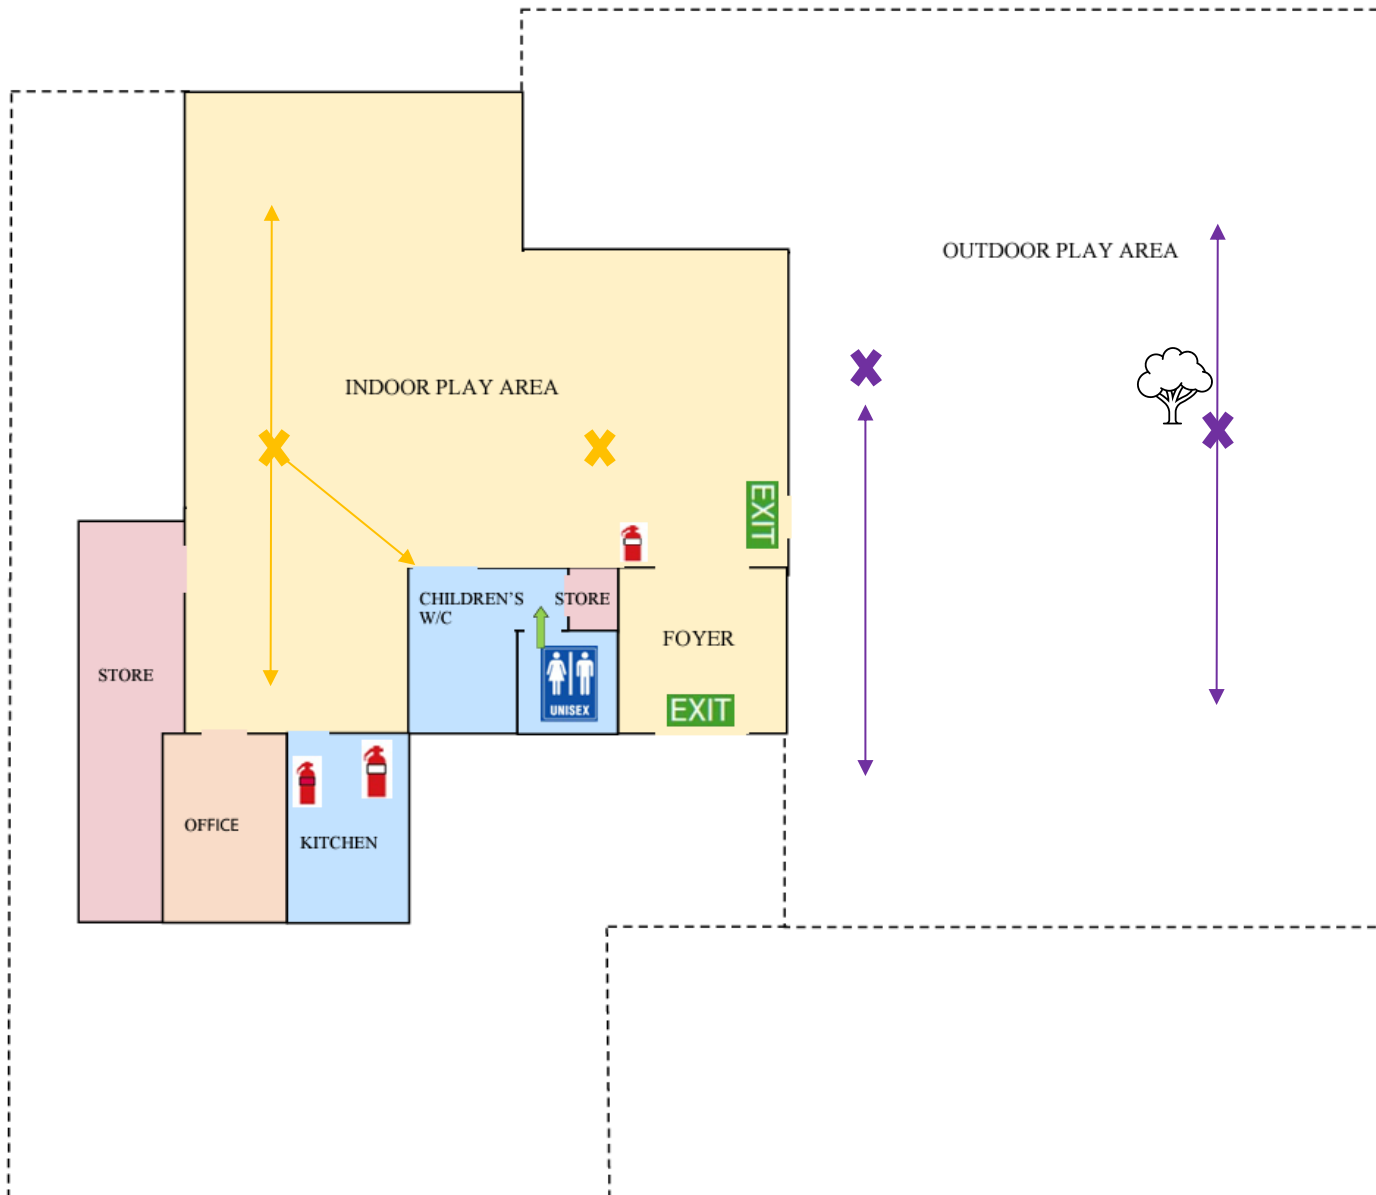

This template is intended as a supplementary tool for all educators involved in the active supervision of children at Gembrook Preschool. It should be reviewed regularly and used alongside the Gembrook Preschool's official Risk Assessments to ensure a comprehensive approach to safety and active supervision. This template is not exhaustive and may need to be adapted to address additional areas or specific risks relevant to the service. All staff working in the program should be familiar with both the supervision guidelines and the relevant risk assessments to ensure the safety and wellbeing of the children under their care.

Area/equipment	Potential supervision risk	Action to reduce or eliminate risk
Fixed equipment e.g. swings, fixed climbing equipment, slides etc.	Falls or misuse leading to injury.	Ensure proper maintenance. Educate children on safe use. Staff will monitor these areas closely during play.
Layout of the internal and/or external areas of the service including a description of areas that provide challenges to supervision e.g. children's bathrooms, L-shaped playgrounds or playrooms, behind structures or features in the playground etc.	Hard-to-see areas (e.g., behind structures, L-shaped spaces) could lead to children becoming unsupervised.	Refer to Attachment 2: Supervision Plan Create clear sight lines. Assign staff to areas that are harder to supervise, like bathrooms or corners of the playground. Planned, active supervision of all areas. Open communication between all educators.
Outdoor play structures (e.g., sandpits, playhouses, balance beams)	Children may get trapped or fall.	Inspect structures regularly and ensure they are age appropriate. Staff to closely supervise children during active play. Ongoing active supervision.
Water play areas (e.g., water tables, splash pads)	Drowning or water-related accidents.	Always supervise during water play. Use shallow, safe water tables. Water safety training each year for staff and children.
Toys and small objects	Choking hazards from small parts.	Regularly inspect toys for safety. Ensure all toys meet regulatory recognised safety standards.
Arrival and departure of children	Children may leave without supervision during pick-up/drop-off times.	Assign staff to monitor entrances during arrival and departure times. Have clear check-in/check-out procedures. All staff access to enrolment details.
Staff supervision responsibilities (quiet/active learning spaces, indoor and outdoor programs, supervision of students and volunteers)	Staff may be overwhelmed with balancing supervision in multiple spaces, which can lead to missed hazards or accidents.	Ensure clear staff roles and responsibilities are assigned for each area. Regularly rotate staff between quiet and active spaces. Provide training for staff and volunteers on active supervision practices and hazard identification.
Potential hazards (e.g., protruding tree roots, small pieces of equipment, etc.)	Hidden or overlooked hazards, such as protruding tree roots, can lead to tripping or injury.	Conduct regular hazard checks. Ensure paths are clear, and any hazards such as protruding roots are marked or fixed. Educate children on safe movement in the outdoor area. OHS checklist regularly undertaken and documented.
